2+2 TV are the market leaders in video/audio on board video systems for the racing world. We are specialists in providing the latest technology where and when required the most. Our systems are used worldwide in a variety of sports and corporate applications. We use high definition on board video equipment which cannot be matched by competitors. You can have your sports experience whether that be skydiving or motor-cycle racing captured and edited professionally in a variety of formats, including the use with mobile phones, PDAs, CD-ROM, VHS and DVD.
